# *What you do before the day*

## **You can choose a DJ ...**

We are a team of professional and experienced wedding DJs. You can choose an interactive DJ or a more laid back style and choose the level of microphone use. Of course, all our DJs create a fun atmosphere.

## **You can customise everything ...**

You can customise the music as little or as much as you like, to hear what you do and don't want played on your special day. This can all be done with our online planning forms or in person.

Before your wedding we meet with you to discuss everything including your background and dancing music. You choose your favourite songs, artists, decades and special songs like entrance, bridal and leaving songs. We can provide lists of our popular background, bridal waltz and party tracks.

## **You can add what you want ...**

We can provide ceremony music including self-powered speakers for remote locations, customised lighting for a unique look and projector or LCD slide show.

You can add more time, photos throughout the night or a second system if required for outdoor music.

# *What you do before the day*

## **You get the highest quality equipment ...**

You will get the highest quality speakers, subtle lighting and a cordless microphone and our setup is compact and neat.

## **You know we'll be on time ...**

Our DJs will be set up before your guests arrive, playing soft background music upon their arrival. Our event checklist, running sheet and co-ordination with the function manager ensures smooth timing of the reception and formalities. We are always on time.

## **We take care of everything ...**

We provide stress free entertainment so that you, your bridal party and your guests can relax and have a great time. We introduce ourselves to your guests, encourage requests and can place request cards on tables.

## **We're not too loud ...**

During dinner we play quiet background music and when it's time to dance we keep the volume at a level that everyone can enjoy.

## **You will hear the music you love ...**

We can play a variety of music from 50's to current to cater for all age groups. We will interact with the crowd and use the microphone as much as you have requested. We play requests and the music you have chosen.
